REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The recitations of the specific features of the operating mechanism for extending a slide-out of a vehicle in claim 1 including especially the construction of the pair of linear meshing members, each linear intermeshing member being connected to one of the rail members and being engageable by a pinion having a rotary axis in a plane that is generally perpendicular to the rail member is connected; a pair of rotary engagers, one rotary engager being rotatably mounted to mesh each linear intermeshing member; a pair of anti-friction members, at least one anti-friction member mounted to support each rail member in a direction away from the associated rotary engager as the rail member is extended and retracted; and a shaft connecting the rotary engagers to rotate together so as to synchronize movement of the rail members with respect to the support structures is not taught nor is fairly suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lori L. Coletta whose telephone number is (703) 306-4614.
